## TERMS AND CONDITIONS

This is a public and mail bid auction conducted by Classical Numismatic Auctions, a division of *Classical Numismatic Group, Inc.* Bidding in the auction constitutes acceptance of the following terms and conditions.

1. The property listed in this catalogue is offered for sale by CNA (**the auctioneers**) as agents for various owners and other consignors. We reserve the right to withdraw any lot before the close of the sale.
2. All lots are subject to a **10 % Buyer's fee** on the hammer price.
3. All coins are guaranteed genuine and as described based on the most current information available to the cataloguer. Grading is a subjective art. Every effort has been made to be conservative in our grading. **Please note that an auction sale is not an approval sale.** Lots examined prior to the sale may not be returned for any reason except authenticity. Estimates given by the auctioneers are intended as a guide only and not as a statement of opinion of value.
4. Terms are for cash, with invoices being due and payable immediately upon receipt and the auctioneers reserve the right to charge interest on any overdue payment on invoices not settled within 30 days of the sale date. Payment by check must be made in either US (\$) or British (£) funds and drawn on an United States or British bank. Visa and Mastercard (Access) may be used to pay your bill, however, a 3.5% surcharge is made for the use of your credit card, our cost from the bank.
5. Bidders not known to us must provide us with satisfactory credit references and/or pay the full purchase price or a deposit as determined at the auctioneer's discretion before delivery of lots. Minors are forbidden from bidding without a parent's signature on the bid sheet.
6. **Bid in even dollar (\$) amounts.** Mail Bidder Protection. You may submit bids with confidence. Where competition permits, your bids will be executed at 10% over the next highest bid. Please note, that most bids below estimate are rarely reduced, due to heavy competition. If you bid over estimate, chances are that your bids will be reduced. In the case of tie bids - the bid received earliest wins. Bid by lot number. No lots will be broken.
7. A word on **Reserves**. If a lot is reserved, it will not be in excess of the estimate. Check your bid sheets carefully. The seller cannot assume responsibility for errors made by bidders.
8. Buyers accepting commission bids from other parties do so at their own risk and will remain responsible to the auctioneers for full settlement per the terms of sale for this auction. Buyers shall not be entitled to remove lots from the auction room during the course of the auction without the prior permission of the auctioneer.
9. Sales Tax and postage are added to all invoices where appropriate. Postage for any book lots will be invoiced separately at the auctioneer's cost.
10. Prices Realised are published shortly after the sale and mailed to all bidders who have participated in the sale.
11. If you bid in this sale, you accept the terms as outlined above. Any legal disputes that might arise will be handled in the courts of Lancaster County, Pennsylvania.

**GOOD LUCK and remember to mail your bid sheets early.  
Bid sheets must be received by December 2, 1991.**

(500)

*Jenkins' group VI comprises only 3 known obverse dies and 7 reverse dies, indicating a very brief period of use. In addition, this reverse die, R163, was altered by the addition of various symbols in sequence; first a fish, then a tied fillet, and finally a leaf behind the bull (the leaf is not clear on this coin, but the die flaw above the ethnic is visible on Jenkins 395 also). The purpose of these symbols is unknown.*

(1500)

34. **SICILY. Leontini.** Circa 455-430 BC. AR Tetradrachm (16.44 gm). Laureate head of Apollo left / LEONTINON (running counterclockwise), head of roaring lion left within linear border, four barley grains around. SNG Copenhagen 350; Weber 1384 (both same dies). VF, over-all porosity.

(750)

*This scarce variety of Leontini tetradrachm has some affinities with the Syracusan tetradrachms of the so-called Demareteion series (now dated to circa 465 BC), most notably in the linear border around the reverse type and the retrograde inscription. This would place this issue near the beginning of this series, perhaps even in the 460's.*

It has been suggested that they may have been struck to be used as Persian subsidy payments to the Greeks during the Peloponnesian War. See P.R. Franke, *The Owls of the Great King*, Xenia 1984.*

One of the great rarities in the Greek Imperial series. Uranius Antoninus based his rule (and his mint) in his home city of Emisa, but he apparently had supporters in Antioch of sufficient influence to strike these rare tetradrachms. Antioch had a well-deserved reputation for civil unrest, and even more ephemeral usurpers than Uranius would serve as a focus for dissent.
